

Safety vests for horse riding

Product 358133 Komperdell Ballistic High Visibility FF

Product: Safety vests for riding

Use: Safety vests are worn to protect the rider's upper body in the event of falls and accidents. They offer protection against bruises, fractures and other injuries.

Materials:

Outer material: nylon, polyester

Inner material: Foam, Polymers

Closures: Velcro fasteners, zippers, metal or plastic buckles

Dangers:

Mechanical hazard: Improper use or damaged vests do not provide sufficient protection.

Allergic reactions: Some materials can cause allergic reactions in sensitive individuals.

Choking hazard: Small parts such as buckles or Velcro fasteners can be swallowed, which is especially dangerous for children.

Fire hazard: Some materials can be flammable at high temperatures or near flames.

Safety Measures:

Handling: Use the safety vest only according to the manufacturer's instructions and make sure it fits properly and is correctly fastened.

Use: Check the vest regularly for wear or damage and replace defective vests immediately.

Storage: Store the vest in a dry, cool place, away from direct sunlight and extreme temperatures.

Care: Follow the manufacturer's care instructions to keep materials in good condition.

First aid measures:

Mechanical injuries: In the event of an accident or fall, stop using the vest and seek medical attention to rule out injuries.

Allergic reactions: If there are signs of an allergic reaction, clean the affected area thoroughly with water and seek medical help if necessary.

Risk of ingestion: Seek medical help immediately if any part is swallowed.
